PROFESSIONAL EXPERIENCE

Powerhouse Animation Studios, Inc: *Lead Technical Artist | May 2014 – April 2025*
Projects: Netflix's *Castlevania*, *Masters of the Universe: Revelation*, *Blood of Zeus*, *Tomb Raider*, *Final Fantasy XV: A King's Tale*, *Dead Island: Retro Revenge*, Stoic's *The Banner Saga*, and more

- **Animation:** Animated, roughed, and in-betweened in traditional, puppet, pixel, graphic, and motion comic styles for characters and effects.
- **Pipeline Automation:** Applies systems thinking to production work, automating repetitive tasks that were previously done manually. Self-initiated scripts are marked with an asterisk (*):
    - ***Keylighting Database (After Effects):** Retrieved and saved preset character compositions from a database and applied them automatically based on the current scene and character.
    - ***Auto Tone Map System (Harmony/After Effects):** Baked tone colors from tone masks exported from Harmony, allowing a separate lighting pass unconcerned with tone colors.
    - ***Chain Animation Tool (Animate):** Tool using JSFL in Adobe Animate to automate chain link placement along a path for *Castlevania* chain whip, with controls for scaling and twisting.
    - **Import/Export Scripts:** Built import/export scripts throughout the pipeline.
    - **Google Sheets:** Scripted task-tracking tools with Google Apps Script and Google Sheets Formulas, enabling managers to monitor deadlines and tasks across departments.
